PROFILE

Front-end developer with 3+ years of experience building modern web applications. Worked in multinational teams, learning and contributing beyond initial job requirements to deliver high-quality solutions. Proficient in building scalable, maintainable systems and optimising performance across the stack.

TECHNICAL SKILLS

- Proficient in developing and testing web applications: **React, Next.js, TypeScript, Cypress, Jest**
- Experienced in utilising the React ecosystem to solve state management, form validation, data fetching and other common problems: **Zustand, Redux, React Hook Form, Zod, SWR, Axios**
- Proficient in using CSS frameworks and UI component libraries: **Tailwind CSS, Styled Components, Chakra UI, Material UI**
- Experienced in writing RESTful APIs and database maintenance: **NestJS, TypeORM, PostgreSQL, GraphQL**
- Experienced in version control systems, CI/CD workflows, design and collaboration tools: **Git, GitHub, Vercel, Netlify, Figma, Agile/Scrum**

PROFESSIONAL EXPERIENCE

Full-Stack Developer

ChoicetechKorea | South Korea, 2023 - Present | [Homepage](#)

Worked closely with an international cross-functional team to develop a skin and hair analysis platform integrating image-based diagnostics and personalised product recommendations. Designed and implemented a back-office web application that supported the platform by managing inventory, customer data, and operational insights.

- Built responsive and accessible user interfaces, ensuring a consistent and intuitive user experience across devices. Optimised component rendering and state management to improve performance and maintainability.
- Designed and implemented RESTful APIs, ensuring reliable data flow and persistence. Optimised database queries and API responses for faster load times and smoother user experience.
- Participated in code reviews and continuous improvement of development practices to enhance team efficiency. Contributed to technical documentation and system design discussions to ensure clarity and long-term maintainability.

PROFESSIONAL EXPERIENCE

Front-End Developer

Emex | Russia, 2021 - 2022 | [Homepage](#)

Contributed to the development of a high-traffic e-commerce marketplace for auto parts and transportation goods, improving search performance, product discovery, and checkout workflows for thousands of customers.

- Built reusable, responsive UI components aligned with a design system to ensure consistency across the platform. Ensured application stability by writing component unit tests.
- Implemented a smooth payment flow, managing complex checkout state. Improved SEO and discoverability by leveraging server-side rendering and incremental static regeneration.
- Managed deployment and testing workflows, and tracked important metrics and issues. Collaborated with developers and QA engineers to refine build processes and establish coding standards across the team.

EDUCATION

Bachelor's degree in Computer Security

Pacific National University | Russia, 2016 - 2022

Studied Computer Security with coursework in cryptography, network protection, and security models of computer systems. Developed and implemented cryptographic algorithms in C++ and Python, and participated in cybersecurity competitions. Graduation thesis focused on authentication methods for users of decentralised applications.
